AD INDUSTRIES INC.

COMPLETE ENGINEERED MANUFACTURING SOLUTIONS

EST. 2016

AT A GLANCE

- 30+ years serving the locomotive industry
- OEM & Rebuild Program Support
- High-volume production capability
- Large-scale CNC machining
- Fabrication & assembly
- Precision inspection & quality verification
- AC & DC Component Expertise
- Facilities in Canada & USA
- 24/7 Manufacturing Operations

FACILITIES & PRODUCTION

- 150,000+ sq. ft. across two Canadian facilities (London, ON) and one US facility (Ashland, OH)
- 40+ modern CNC machines
- 5-axis machining capability
- Up to 40-ton overhead crane capacity
- 24-hour operation

INDUSTRIES SERVED

- Rail & Locomotive
- Defense
- Aerospace
- Heavy Industrial
- Power Generation
- Mining
- Oil & Gas

QUALITY & CONTROL

- ISO 9001:2015
- CWB - CSA W47.1 Steel/ W47.2 Aluminum
- AWS Steel & Aluminum
- Controlled Goods Program registered
- CMM inspection capability

ONE PARTNER. *LARGE* COMPONENTS. *COMPLETE* MANUFACTURING SUPPORT.

A single-source manufacturing partner for engineered components, weldments and assemblies.

CNC MACHINING

- Large-capacity horizontal & vertical turning
- Horizontal & vertical milling
- 2-, 3-, 4-, & 5-axis capability
- Precision boring, milling, & turning
- In-house fixturing & palletized system

FABRICATION & WELDING

- Heavy structural fabrication
- CWB-certified steel & aluminum welding
- Robotic welding capability
- Weld buildup & large welded fabrications

LARGE FORMAT MACHINING

275 x 137 x 39.4"	78 x 59"	200"	44,000 lb	±0.001"
Horizontal travel / machining envelope	Vertical boring travel	Maximum cutting diameter	Table load	Tolerance capability

HAVE A LARGE, COMPLEX OR HARD-TO-SOURCE COMPONENT?
SEND US YOUR DRAWING, MODEL OR RFQ.
